Non-guests are welcome to breakfast. At establishments displaying the above sign, both guests and non-guests can enjoy a "Delightful Breakfast." Please see the reverse for details.

Start Your Morning in Kanazawa with the Delights of Fermented Foods

One of the highlights of a trip is a meal unique to your travel destination. The "Kanazawa Accommodation Delightful Breakfast Project" was born from the belief that sourcing and serving locally produced food is the epitome of hospitality for travelers.

Fermentation, a natural process that unlocks the umami flavors of food while extending its shelf life, is a longstanding tradition in Japan. In Kanazawa, this culinary heritage of savoring fermented foods remains vibrant even today. Such foods are highly regarded for kickstarting the day due to their potential to promote digestive well-being.
